Agricultural Statistics 1988

On the front cover...

The front cover shows an outline map of Saskatchewan indicating the nine crop districts and three soil zones. Much of the crop and livestock production data in the handbook is presented by crop district. The soil zone demarcation shows the variation in growing conditions in Saskatchewan.

As most of Saskatchewan's soil is predominantly of loamy texture, production capabilities are determined largely by weather conditions and the presence of organic matter. The brown soil zone covers 21.0 million acres in southwest Saskatchewan. The relatively warm temperatures, lack of moisture and lack of organic matter in this arid region limit crops to small grains and the use of grassland for livestock production.

The dark brown soil zone, covering 18.3 million acres, lies north and east of the brown zone. A small area, with the characteristic cooler temperatures and more moisture, is also evident around the Cypress Hills in southwest Saskatchewan.

The black soil zone covers 26.4 million acres in the north and east of the agricultural area. The growing period is shorter but the lower temperatures and increased moisture allow for a wider variety of cropping practices.

FOREWORD

Agricultural Statistics is a handbook containing Saskatchewan agricultural statistics. Agricultural Statistics 1988 is our thirteenth statistical handbook and includes the latest statistics on the agricultural financial situation, crops, livestock and weather and climate.

Sources of the information contained in this handbook include Statistics Canada, Agriculture Canada, Canada Grains Council, Canadian Wheat Board, Canadian Grain Commission, Environment Canada, Farm Credit Corporation, Manitoba Department of Agriculture, Saskatchewan Crop Insurance Corporation, Agricultural Credit Corporation of Saskatchewan, Saskatchewan Water Corporation, Saskatchewan Pork Producers Marketing Board, Saskatchewan Sheep and Wool Marketing Commission, Saskatchewan Beef Stabilization Board, Saskatchewan Milk Control Board, Saskatchewan Turkey Producers Marketing Board, Saskatchewan Chicken Marketing Board, Saskatchewan Commercial Egg Producers Marketing Board, Natural Products Marketing Council and the Branches of Saskatchewan Agriculture and Food.

We hope the handbook will be useful to agriculture's decision-makers--producers, agribusiness, government. We welcome suggestions for changes and improvements. If you have any comments or enquiries, please contact:

FARM FINANCE

1. Population and Land Base, Saskatchewan, 1971-86 1
2. Number and Size of Saskatchewan Farms, 1906-86 1
3. Value of Farm Capital in Saskatchewan, 1949-88 2
4. Average Value of Farm Land (including buildings) in Saskatchewan, 1949-88 3
5. Amount and Source of Outstanding Agricultural Debt at December 31, Saskatchewan, 1971-87 3
6. Agricultural Credit Corporation of Saskatchewan Loan and Grant Approvals by Type, Year Ending March 31, 1974-88 4
7. Farm Improvement Loans Act Loans by Purpose, Saskatchewan, 1971-87 4
8. Farm Credit Act Loan Disbursements and Approvals, Saskatchewan, Year Ending March 31, 1971-88 5
9. Farm Credit Act Loans, by Type of Farm, Saskatchewan, Year Ending March 31, 1984-88 6
10. Age Distribution of Farm Credit Act Borrowers, Saskatchewan, Year Ending March 31, 1984-88 7
11. Cash Receipts, Expenditure and Farm Income from Farm Operations, Saskatchewan, 1926-88 8
12. Income of Farm Operators from Farming Operations, by Province, 1988 10
13. Forecast Income of Farm Operators from Farming Operations, by Province, 1989 10
14. Total Cash Receipts from Farming Operations, by Province, 1971-88.. 12
15. Realized Net Income of Farm Operators from Farming Operations, by Province, 1971-88 12
16. Cash Receipts from Farming Operations, Saskatchewan, 1981-88 14
17. Farm Operating Expenses and Depreciation Charges, Saskatchewan, 1981-88 16
18. Income of Farm Operators from Farming Operations, Saskatchewan, 1981-88 18
19. Farm Product Price Index, Saskatchewan and Canada, 1971-88 20
20. Farm Product Price Index, Saskatchewan, 1971-88 21
21. Farm Input Price Index, Western Canada, 1971-88 22
22. Average Prices for Selected Farm Inputs, Saskatchewan, 1985-88 24
23. Herbicides Used for Weed Control, Saskatchewan, 1971-87 29
24. Retail Fertilizer Sales, Saskatchewan, Year Ending June 30, 1984-88 29
25. Selected Farm Machinery Sales, Canada and Western Canada, 1984-88.. 30
26. Value of Saskatchewan Agricultural Exports, 1986-88 30

CROPS

27. Summerfallow Acreage, Saskatchewan, 1916-88 31
28. Winter Wheat Production and Value, Saskatchewan, 1981-88 31
29. Spring Wheat Production and Value, Saskatchewan, 1916-88 32
30. Durum Production and Value, Saskatchewan, 1941-88 33
31. Oats Production and Value, Saskatchewan, 1916-88 35
32. Barley Production and Value, Saskatchewan, 1916-88 37
33. Rye Production and Value, Saskatchewan, 1916-88 39

34. Flaxseed Production and Value, Saskatchewan, 1916-88 41
35. Canola Production and Value, Saskatchewan, 1943-88 43
36. Tame Hay Production and Value, Saskatchewan, 1921-88 44
37. Winter Wheat Acreage, Yield and Production, by Crop District, 1981-88 46
38. Spring Wheat Acreage, Yield and Production, by Crop District, 1979-88 50
39. Durum Acreage, Yield and Production, by Crop District, 1979-88 54
40. Oats Acreage, Yield and Production, by Crop District, 1979-88 58
41. Barley Acreage, Yield and Production, by Crop District, 1979-88 62
42. Rye Acreage, Yield and Production, by Crop District, 1980-88 66
43. Flaxseed Acreage, Yield and Production, by Crop District, 1979-88 .. 70
44. Canola Acreage, Yield and Production, by Crop District, 1979-88 74
45. Ten-Year Average Yields, Saskatchewan, by Rural Municipality, 1979-88 76
46. Area, Yield, Production of Specialty Crops, Saskatchewan, 1987-88 .. 82
47. Specialty Crops Area Seeded, Saskatchewan, 1971-88 82
48. Specialty Crops Yields, Saskatchewan, 1971-88 83
49. Specialty Crops Prices, Saskatchewan, 1971-88 83
50. Forage Seed Production, Saskatchewan, 1979-88 84
51. Average Dates of Seeding and Harvesting Operations for Spring Wheat, Saskatchewan, 1952-88 85
52. Average Protein Content of Hard Spring Wheat, Saskatchewan, by Crop District, 1984-88 86
53. Spring Wheat Grades, Saskatchewan, 1979-88 86
54. Grades of Grains and Oilseeds, Saskatchewan, 1987-88 87
55. Spring Wheat Grades, Saskatchewan, by Crop District, 1988 87
56. Stocks of Crops on Farms, Saskatchewan, July 31, 1960-88 88
57. Farm Supply and Disposition of Major Crops, Saskatchewan, Crop Years 1984-85 to 1987-88 89
58. Canadian Wheat Board Payments for Wheat and Durum, Basis in Store Thunder Bay, Crop Years 1971-72 to 1988-89 90
59. Canadian Wheat Board Payments for Oats, Basis in Store Thunder Bay, Crop Years 1971-72 to 1988-89 91
60. Canadian Wheat Board Payments for Barley, Basis in Store Thunder Bay, Crop Years 1971-72 to 1988-89 92
61. Average Canadian Wheat Board Selling Quotations, Basis in Store Thunder Bay, Crop Years 1974-75 to 1987-88 93
62. Average Saskatchewan Wheat Pool Street Price Quotations, Crop Years 1974-75 to 1987-88 93
63. Canadian Wheat Board Prices, Basis Thunder Bay, Crop Years 1987-88 and 1988-89 94
64. Primary Elevator Handling Charges, Saskatchewan Wheat Pool, Crop Years 1981-82 to 1988-89 95
65. Grain and Oilseed Freight Rates, from Saskatoon, Crop Years 1981-82 to 1988-89 96
66. Number and Capacity of Licensed Primary Elevators, Saskatchewan and Prairies, August 1, 1971-88 96
67. Canadian Wheat Board Cash Advances to Producers, Prairie Provinces, Crop Years 1957-58 to 1987-88 97
68. Western Grain Stabilization Program, 1976-88 98
69. Saskatchewan Crop Insurance Program, Crop Years 1961-62 to 1987-88 99

LIVESTOCK AND POULTRY

70. Livestock on Farms, Saskatchewan, June 1, 1916-73, July 1, 1974-88 100
71. Average Livestock Prices, Saskatchewan, 1931-88 102

72. Livestock Marketed, Saskatchewan, 1976-88....103
73. Cattle on Farms, Saskatchewan, June 1, 1932-73, July 1, 1974-88....104
74. Cattle on Farms, Saskatchewan, by Crop District, June 3, 1981 and 1986 and July 1, 1988....105
75. Cattle on Farms, Saskatchewan, December 1, 1941-72, January 1, 1974-89....108
76. Origin of Cattle Marketed, Saskatchewan, 1987-88....109
77. Destination of Saskatchewan Cattle Marketed, 1984-88....110
78. Monthly Average Saskatchewan Beef Stabilization Board A1,2 Steer Price, 1984-88....110
79. Saskatchewan Cattle Prices, 1984-88....111
80. Pigs on Farms, Saskatchewan, June 1, 1932-73, July 1, 1974-88, December 1, 1932-72, January 1, 1974-89....112
81. Pigs on Farms, Saskatchewan, by Crop District, June 3, 1981 and 1986 and July 1, 1988....114
82. Pigs Marketed through Saskatchewan Pork Producers Marketing Board by Size of Producer Marketings, 1984-88....115
83. Origin of Pigs Marketed through Saskatchewan Pork Producers Marketing Board 1984-88....116
84. Index of Pigs Marketed through Saskatchewan Pork Producers Marketing Board, 1984-88....117
85. Destination of Pigs Marketed through Saskatchewan Pork Producers Marketing Board, 1984-88....117
86. Monthly Average Index 100 Hog Price, Saskatchewan, 1986-88....118
87. Hog-Barley Ratio, Winnipeg, by Month, 1971-88....118
88. Sheep on Farms, Saskatchewan, June 1, 1932-73, July 1, 1974-88, December 1, 1940-72, January 1, 1974-89....119
89. Sheep and Lambs Marketed by the Saskatchewan Sheep and Wool Marketing Commission, 1975-88....120
90. Sheep on Farms, Saskatchewan, by Crop District, June 3, 1981 and 1986 and July 1, 1988....121
91. Average Monthly Heavy Lamb Price, Saskatchewan, 1984-88....122
92. Production, Value and Disposition of Shorn Wool (Greasy Basis), Saskatchewan, 1979-88....122
93. Farm Sales of Milk and Cream, Saskatchewan, 1979-88....123
94. Cash Receipts from Sales of Milk and Cream, Saskatchewan, 1979-88....123
95. Saskatchewan Farm Cream Sales, 1972-88....123
96. Saskatchewan Milk Production and Value, 1971-88....124
97. Saskatchewan Milk Production by Control Area, 1985-88....124
98. Saskatchewan Milk Sales, 1971-88....125
99. Average Milk Pool Producer Price, Saskatchewan, 1971-88....125
100. Average Monthly Group I Milk Pool Producer Price, Saskatchewan, 1984-88....126
101. Chickens and Turkeys Placed in Saskatchewan, 1984-88....127
102. Fowl and Chicken Production, Saskatchewan, 1971-88....127
103. Turkey Production, Value and Disposition, Saskatchewan, 1971-88....128
104. Hatchery Production, Saskatchewan, 1984-88....128
105. Poultry Marketings Through Registered Processing Stations, Saskatchewan, 1984-88....128
106. Interprovincial Movement of Chicks, Poults and Eggs, 1987-88....129
107. Registered Chicken Production and Value, Saskatchewan, 1971-88....129
108. Distribution of Registered Chicken Quota Holdings at January 1, Saskatchewan, 1985-89....130
109. Registered Chicken Marketings by Class, Saskatchewan, 1984-88....130
110. Saskatchewan Chicken Marketing Board Prices, Live, F.O.B. Farm, 1984-88....131
111. Registered Turkey Production and Value, Saskatchewan, 1971-88....132
112. Registered Turkey Marketings by Class, Saskatchewan, 1984-88....132

113. Destination of Registered Turkey Marketings, Saskatchewan, 1984-88 133
114. Saskatchewan Turkey Producers Marketing Board Prices, Live No. 1, F.O.B. Farm, 1984-88 133
115. Egg Production and Disposition, Saskatchewan, 1971-88 134
116. Registered Egg Production and Value, Saskatchewan, 1974-88 135
117. Distribution of Registered Egg Quota Holdings at January 1, Saskatchewan, 1985-89 135
118. Monthly Average Egg Price (Grade A Large) to Producers, Saskatchewan, 1984-88 136
119. Honey and Beeswax Production, Saskatchewan, 1971-88 137
120. Per Capita Disappearance of Meat and Eggs, Canada, 1961-88 138
121. Saskatchewan Livestock Stabilization Programs, Year Ending March 31, 1977-88 139

MISCELLANEOUS

122. Area Under Irrigation, by Type of Irrigation, Saskatchewan, 1986-88 140
123. Area Developed for Irrigation by Year of Development, Saskatchewan, 1901-88 140
124. Climate Normals (1951-80): Frost-free Season and Growing Degree Days for Selected Reporting Stations 141
125. Monthly Precipitation for Selected Reporting Stations, Mean Normal(1951-80) and 1988 142
126. Monthly Average High and Low Temperatures for Selected Reporting Stations, Mean Normal (1951-80) and 1988 144
127. Metric Conversion Factors Used 148

1988 AGRICULTURE NEWS REVIEW

January

2 - Prime Minister Brian Mulroney and President Ronald Reagan signed the Canada-U.S. **Free Trade Agreement** simultaneously in Ottawa and Palm Springs, CA.

4 - the Canadian Wheat Board announced the results of the **1986-87 pool accounts**. The 1986-87 wheat pool ended with a surplus of $8.1 million allowing for payments on some grades. There was no final payment for No. 1 C.W.R.S. Wheat. The 1986-87 final payments included $20.20 per tonne ($0.55/bu.) for No. 1 C.W.A. Durum; $18.27 per tonne ($0.28/bu) for No. 1 Feed Oats and $2.59 per tonne ($0.04/bu.) for No. 1 C.W. Des. Oats. The C.W.B. also announced that the 1986-87 barley pool and designated barley pool ended with deficits of $92.5 million and $18.0 million, respectively, thus no final payments would be made.

19 - Federal Agriculture Minister John Wise and International Trade Minister Pat Carney announced that ice cream, ice cream novelties and ice cream mix; ice milk and ice milk mix; yogurt and liquid forms of skim milk, buttermilk and blends of these products would be added to the **Import Control List** in support of the Canadian milk supply management program. The United States challenged, under GATT, the addition of ice cream and yogurt to the import control list on **December 20, 1988**.

- Federal Agriculture Minister John Wise announced a new cost-of-production pricing system for establishing target returns for **industrial milk** production, effective February 1, 1988. New target prices would thereafter be set annually in August and reviewed and adjusted in February if the change is two per cent or more.
- the **National Tripartite Hog Stabilization Committee** announced that no stabilization payments for hogs would be made for the October-December 1987 program period.
- the **National Tripartite Lamb Stabilization Committee** announced that no stabilization payments for lambs would be made for the September-November 1987 program period.
- the federal government announced that federal government owned hopper cars were being provided, at no charge, to the Canadian Wheat Board for **winter rail movement** to eastern export positions.

28 - Federal Agriculture Minister John Wise introduced a bill to establish **plant breeders' rights**. The legislation would make it possible for breeders of new plant varieties to hold exclusive rights and receive royalties upon sale of those varieties.

- Federal Agriculture Minister John Wise announced that the **Farm Improvement and Marketing Co-operatives Loans Act** (FIMCLA) would go into effect February 1, 1988 upon expiration of the Farm Improvement Loans Act (F.I.L.A.). Provisions of the new program include: guarantees on loans made to co-operatives to process, market and distribute commodities, an increase in the maximum amount outstanding from $100 000 to $250 000 for individuals, a refinancing provision, a one-half of one per cent user fee, and extending the definition of a farmer to include producers with off-farm employment.

29 - Federal Agriculture Minister John Wise announced increases to the target price for **industrial milk** and to support prices for butter and skim milk powder. Effective February 1, 1988, the target price for industrial milk increased from $46.48 to $47.06/hl of milk containing 3.6 kg B.F. The support price for butter increased from $5.035 to $5.102/kg and the support price for skim milk powder increased from $2.978 to $3.013/kg.

- **temperatures** during January averaged below normal early in the month and normal to above normal until month end resulting in mean monthly temperatures of 1°C to 2°C above normal over much of the province. **Snowfall** totals during January varied from one-third of normal to two-thirds of normal for most of the agricultural region. Isolated locations in eastern areas received above normal snowfall during the month. Most of the measurable snowfall occurred around the 23rd and the 30th.

February

2 - payments totalling $0.62 million were mailed to participants of the **Saskatchewan Hog Assured Returns Program** for the October-December 1987 program period.

4 - Federal Minister of State for Finance, Tom Hockin, lowered the duty on imports into Canada of **grain corn** from the United States from $1.10 to $0.46 Cdn. per bushel. The Canadian Import Tribunal recommended in October 1987 that the duty was too high and unfair to users of corn. A provisional duty was first applied to imports of U.S. corn in November 1986.

10 - Federal Finance Minister Michael Wilson presented the 1988 **Budget** which included: commitment to continued income tax reform; commitment to reform of the federal sales tax; a 1.0 cents per litre increase in the excise tax on gasoline, effective April 1, 1988; and a 1.0 cents per litre increase in the federal fuel tax rebate to offset the increase in the excise tax. Effective April 1, 1988, federal fuel tax rebates totalled 10.0 cents per litre for gasoline and 9.0 cents per litre for diesel fuel.

- eastern Canadian grain producers received $10.3 million for 1986 spring wheat, oats and barley under the **Agricultural Stabilization Act.** The payments were $13.44 per tonne for spring wheat; $12.88 per tonne for oats and $17.69 per tonne for barley. Stabilization payments for corn, soybeans and winter wheat were made in 1987. Total payments under A.S.A. for 1986-87 eastern grain production were $183 million.
- the **National Tripartite Beef Stabilization Committee** announced a slaughter cattle stabilization payment of $17.37 per head for the October-December 1987 program period and that no stabilization payments for feeder cattle would be made for fourth quarter 1987.

15 - the Advisory Committee to the Canadian Wheat Board released the report of a committee which reviewed the **C.W.B. quota system.** The major recommendation of the report, initiated in June 1987, was for the C.W.B. to draw grain on the basis of producer inventory-based commitments.

17 - Federal Agriculture Minister John Wise released the National Farm Products Marketing Council's report recommending the establishment of a national **potato marketing agency**.

18 - the Saskatchewan Beef Stabilization Board announced payments totalling $6.96 million to participants of the **Saskatchewan Beef Market Insurance Programs** for the October-December 1987 program period.

19 - the Canadian Wheat Board announced that a separate payment would be made for No. 1 C.W.R.S. wheat with **14.5%** or higher protein, effective August 1, 1988.

- the **Canadian Turkey Marketing Agency** reduced the 1988 global production quota by three per cent from 1987 to 114 398 000 kg (eviscerated) due to high 1987 year-end carryover.

- below normal **snowfall** was recorded across most of the province during February. Only isolated locations in western Saskatchewan recorded monthly precipitation greater than normal and those were a result of 8 to 13 cm of snow received at mid-month. **Temperatures** were well below normal during the first two weeks of February and were normal or above normal from mid-month to month end. As a result, average temperatures were near normal.

March

1 - the National Transportation Agency approved the proposals by both CN and CP Rail to offer incentive **grain shipping rates** for 1988-89. As of August 1, 1988, CN was allowed to offer a rate reduction of $1.50 per tonne on shipments of 18 hopper cars loaded in a 24 hour period and shipped to a single destination. CP Rail was allowed to offer a rebate of $1.00 per tonne on shipments between 25 000 and 30 000 tonnes and $1.25 per tonne on shipments greater than 30 000 tonnes from individual shipping points. The railways, in co-operation with grain shippers, applied for lower rates in December 1987.

2 - Federal Agriculture Minister John Wise announced payments totalling $17.2 million to **potato** growers to partially compensate for low prices for the 1985 crop. Payments to Saskatchewan were expected to total $0.2 million.

3 - the Canadian Grain Commission announced a new canola **producer car** policy for the 1988-89 crop year. Features of the policy included: producer cars destined for Vancouver would be allocated without limit provided producers could demonstrate a committed export sale; the appointment of a canola price review panel to monitor and report prices; and the establishment of trading sessions for the producer car canola. Chief Commissioner George Leith announced **June 17, 1988** that the canola producer car policy would not be implemented August 1, 1988 but would be pending the establishment of the cash call market. The Winnpeg Commodity Exchange initiated the cash call market November 1, 1988 for February 1989 delivery.

7 - the Canadian Grain Commission filed a notice of intent that there would be no change to the maximum **tariffs** of charges for licensed primary, terminal and transfer elevators for the 1988-89 crop year with the exception of a ten per cent increase in the maximum storage tariff at all elevators.

18 - the Saskatchewan Natural Products Marketing Council announced that commercial vegetable growers had voted in favour of establishing a **vegetable marketing and development plan**. The question was put to a producer vote in February following a proposal submitted by the Saskatchewan Vegetable Marketing Commission. The Saskatchewan Vegetable Marketing and Development Board was established July 8, 1988.

- the Canadian Wheat Board discontinued the **bonus rail car policy** for clean grain announced in November 1987. The policy was implemented to alleviate the congestion at west coast cleaning facilities.

21 - Saskatchewan Lieutenant-Governor F.W. Johnson read the **Throne Speech** opening the Second Session of the Twenty-First Saskatchewan Legislature. Highlights included commitment to: protection of farm and rural families; continued pressure for the removal of international programs affecting Saskatchewan agriculture; new measures to take advantage of the opportunities resulting from the Free Trade Agreement and continued diversification of the provincial economy.

31 - Saskatchewan Finance Minister Gary Lane presented the **1988 Budget** which included: increased funding for irrigation based economic development, research and development for new farming techniques and alternative crop production to promote soil management and continued establishment of Rural Development Corporations; a new lending program at 9.75 per cent for farm partnerships and corporations to establish or expand livestock operations; an increase in the flat tax from 1.5 to 2.0 per cent of net income, retroactive to January 1, 1988 and tabling of a discussion paper with respect to income tax reform.

- **precipitation** during March ranged from two-thirds of normal in the southeast to three times normal in northern areas. Most of the month's precipitation occurred on the 10th and 11th as snow moved across the province from Meadow Lake through Yorkton and in the period of the 26th to the 29th north of a line from Lloydminster through Regina. South of this line, snowfall accumulations ranged from two-thirds to 90 per cent of normal. March was generally mild across Saskatchewan with average **temperatures** for the month 1°C to 7°C above the normals. **Winter snowfall** accumulations, November 1987-March 1988, were below normal across most of the agricultural region of the province. Only the Prince Albert-Nipawin-Hudson Bay areas in the northeast recorded above normal winter precipitation and that was due to the March 27-28 snowfall. Winter snowfall across the remainder of the province ranged from 40 per cent of normal in the southeast to near normal in east central and in northwestern regions. By month end, no snow remained in the area south and west of a line from Kindersley through Estevan while only a light cover remained in a band from North Battleford-Lloydminster to Yorkton-Broadview. Up to 40 cm was still on the ground in those northernmost areas which received the March 27-28 snow.

April

1 - changes to the Saskatchewan Beef Stabilization **Feeder Finish Market Insurance Program** were implemented to address the increasing deficit. Among the changes were: an increase in the levy rate from two and one-half per cent to three per cent; adjustments to the feeding model to reflect changes in the feeding industry; and a revision to the support formula from 100 per cent of cash costs and 50 per cent of non cash costs to 95 per cent of total costs.

12 - Federal Minister of State for Grains and Oilseeds Charles Mayer announced **1987-88 initial price** increases for each of the C.W.B. pool accounts except designated oats. Initial prices were raised, effective April 18, 1988: $10.00 per tonne ($0.27/bu.) for Western Red Spring, Feed and Western Red Winter Wheat; $10.00 per tonne ($0.15/bu) for Oats; $15.00 per tonne ($0.41/bu.) for Prairie Red Spring, Utility and Soft White Spring Wheat and for Durum; $5.00 per tonne ($0.11/bu.) for Barley; and $20.00 per tonne ($0.43/bu.) for Designated Barley. Effective April 18, initial prices for the base grades were: $120.00 per tonne ($3.27/bu.) for No. 1 C.W.R.S. Wheat, basis Thunder Bay; $125.00 per tonne ($3.40/bu.) for No. 1 C.W.A. Durum, $90.00 per tonne ($1.39/bu.) for No. 1 Fd. Oats; $125.00 per tonne ($1.93/bu.) for No. 1 C.W. Des. Oats; $65.00 per tonne ($1.42/bu.) for No. 1 C.W. Barley; and $125.00 per tonne ($2.72/bu.) for S.S.C.W. 6 Row Barley. Adjustment payments for August 1-April 18 deliveries were mailed to producers in May. The April adjustment to 1987-88 initial prices followed price adjustments for both oat pools in October 1987.

15 - Saskatchewan Rural Development Minister Neal Hardy presented the report of the **MLA Committee on Farm Finance** to Premier Grant Devine. Among the nine recommendations to deal with Saskatchewan's farm finance situation were: a pilot equity financing project; further protection with respect to the home quarter in the event of foreclosure; further mechanisms to strengthen debt mediation and to facilitate debt set-aside and adjustment arrangements between lenders and farmers; consolidation of farm protection legislation; and measures which would allow retiring farmers to leave as much capital as possible in agriculture.

18 - Federal Agriculture Minister John Wise announced funding of $2.9 million available to provincial **milk recording** agencies in B.C., Alberta, Saskatchewan and Ontario that agreed to take over the Record of Performance (R.O.P.) program. Mr. Wise also announced that the Saskatchewan R.O.P. program for dairy cattle would be transferred to the Saskatchewan Dairy Herd Improvement Corporation, a producer-run private corporation.

22 - Federal Minister of State for Grains and Oilseeds, Charles Mayer, announced **1988-89 initial payments** for the base grades of wheat, oats and barley. Initial prices were set at $120.00 per tonne ($3.27/bu.) for No. 1 C.W.R.S. Wheat basis Thunder Bay; $125.00 per tonne ($3.40/bu.) for No. 1 C.W.A.Durum; $90.00 per tonne ($1.39/bu.) for No. 3 C.W. Oats; $125.00 per tonne ($1.93/bu) for No. 1 C.W. Des. Oats; $65.00 per tonne ($1.42/bu.) for No. 1 C.W. Barley; and $125.00 per tonne ($2.72/bu.) for S.S.C.W. 6 Row Barley. As a result of a rise in world grain prices, 1988-89 initial payment increases were announced July 20, 1988. The per tonne increases were: No. 1 C.W.R.S. - $30.00; No. 1 C.W.A.D. - $50.00; No. 3 C.W. Oats - $70.00, No. 1 C.W. Des. Oats - $70.00; No. 1 C.W. Barley - $55.00 and S.S.C.W. 6 Row Barley - $55.00. The initial price for wheat was increased an additional $20.00 per tonne effective November 17, 1988, bringing the intial price for No. 1 C.W.R.S. to $170.00 per tonne ($4.63/bu.), basis Thunder Bay.

- Federal Minister of State for Grains and Oilseeds, Charles Mayer, announced a $695 million interim payment under the **Western Grain Stabilization Act** for the 1987-88 crop year. The payment to 61 000 Saskatchewan participants was $379 million. A final payment totalling $255 million, $139 million to Saskatchewan, was announced in November 1988.
- the **National Tripartite Hog Stabilization Committee** announced a stabilization payment of $3.14 per hog for the January-March 1988 program period.
- the **National Tripartite Lamb Stabilization Committee** announced that no stabilization payment would be made for the December 1987-February 1988 program period.

28 - payments totalling $1.39 million were mailed to participants of the **Saskatchewan Hog Assured Returns Program** for the January-March 1988 program period.

29 - the National Transportation Agency announced the **rail freight rate** scale for the 1988-89 crop year. The producer's share of the statutory grain rate increased $0.06 per tonne to $8.38 per tonne. Federal Transport Minister Benoit Bouchard and Grains and Oilseeds Minister Charles Mayer subsequently announced an extension of the special grain freight assistance program by contributing $1.11 per tonne of the producer's statutory share. As a result, for the 1988-89 crop year, the actual average cost paid by producers would be $7.27 per tonne. The average cost paid by producers in 1987-88 was $6.32 per tonne. The 1988-89 assistance program was expected to total $35 million.

- average **temperatures** for April ranged from near normal in northern grainbelt locations to 2°C to 3°C above normal across southern areas. The coldest temperatures, below normal, were recorded during the third week. Only the extreme east central agricultural region received above normal **precipitation** during April. In the southeast, accumulated precipitation was two-thirds to three-quarters of normal while the remainder of the province received less than one-half of normal precipitation. No measurable precipitation was recorded in southwestern or central locations.

May

9 - Saskatchewan Premier Grant Devine announced that as a result of drought conditions, leaseholders of crown land **grazing leases** would be allowed to sublet grazing and hay leases to make feed or grazing available to other livestock owners.

- Saskatchewan Minister responsible for the Saskatchewan Water Corporation Herb Swan announced an additional $8.5 million to Saskatchewan Water Corporation **water supply programs** to address farm and rural water supply shortages including construction of wells, dugouts and reservoirs and hauling or pumping of water.

10 - the **National Tripartite Beef Stabilization Committee** announced a slaughter cattle stabilization payment of $37.91 per head for the January-March 1988 program period and that no stabilization payments for feeder cattle would be made for first quarter 1988.

13 - Federal Agriculture Minister John Wise announced that **Reglone** was accepted for use on lentils.

19 - the Saskatchewan Beef Stabilization Board announced payments totalling $10.64 million to participants of the **Saskatchewan Beef Market Insurance Programs** for the January-March 1988 program period.

25 - Saskatchewan Justice Minister Bob Andrew introduced the **Saskatchewan Farm Security Act** to consolidate existing and new protection statutes. The homestead protection and right of first refusal sections of the Act were proclaimed June 24, 1988. The sections of the Act dealing with mediation, farm ownership rules and loan guarantees were proclaimed September 1, 1988.

- Saskatchewan Minister responsible for Saskatchewan Crop Insurance Corporation Neal Hardy announced that farmers affected by the drought conditions and resulting shortages of feed could use **fall rye** and **winter wheat** as fodder prior to June 10 and retain crop insurance coverage.

26 - United States Secretary of Agriculture Richard Lyng announced the **1989-90 loan rate** for wheat at $2.06 per bushel, down seven per cent from $2.21 for 1988-89. The 1988-89 loan rate was set at $2.17 in July 1987 as specified in the 1985 Farm Bill but was raised to $2.21 under the Agricultural Reconciliation Act of 1987. The Agricultural Reconciliation Act set the 1988-89 loan rate for all crops except soybeans and sorghum at three per cent below 1987-88 instead of five per cent.

31 - Federal Agriculture Minister John Wise and Grains and Oilseeds Minister Charles Mayer announced additional funding of $12 million through **Prairie Farm Rehabilitation Administration (P.F.R.A.)** to assist prairie farmers develop new water supplies in response to farm and rural water shortages.

- May was generally warm and dry across Saskatchewan. Overnight **temperatures** were below freezing in early May while daytime temperatures were near normal. Temperatures were near normal by mid-month and were above normal by month end. As a result, May temperatures averaged 3°C to 4°C above normal. Most of Saskatchewan received below normal **rainfall** during May. Exceptions were southeastern areas along the Manitoba border which received rain and showers regularly throughout the month. Isolated locations in southern and western areas of the province received heavy thunder showers at mid-month and at month end which resulted in May 1988 rainfall totals above the normals. **April-May** total rain was one-quarter to one-half of normal across most of Saskatchewan. Only easternmost regions and the extreme northwest had above normal April-May precipitation. By month end, with seeding near 95 per cent completed, moisture conditions were poor across southern and northeastern Saskatchewan.

June

1 - Grains and Oilseeds Minister Charles Mayer, federal Agriculture Minister John Wise and Minister of State for Agriculture Pierre Blais announced that Canadian farmers would continue to receive benefits of the **two-price wheat** policy with the expiration of the program July 31, 1988. For the 1988-89 crop year, benefits were estimated to total $227 million.

6 - the Federal Government introduced amendments to the **Western Grain Stabilization Act** to encourage program participation. Grains and Oilseeds Minister Charles Mayer announced August 18, 1988 that the amendments were given Royal Assent.

9 - the United States Department of Commerce announced the preliminary results of their Administrative Review of the U.S. countervailing **duty** on **live hogs** imported from Canada and recommended a reduction in the duty from 4.39 cents to 2.2 cents per pound. The U.S. Department of Commerce completed the Administrative Review in December 1988 and lowered the duty to 2.2 cents per pound as recommended. The countervailing duty was implemented in August 1985.

24 - Saskatchewan Justice Minister Bob Andrew announced that the homestead protection and right of first refusal sections of the **Saskatchewan Farm Security Act** had been proclaimed. Home quarter protection was extended to include all mortgages. The right of first refusal gives the farmer the right to first refusal on any resale of that land by a creditor. The sections of the Farm Security Act dealing with mediation, farm ownership rules and loan guarantees were proclaimed effective September 1, 1988. The Saskatchewan Farm Security Act was introduced in May 1988 to consolidate existing and new protection statutes.

- Federal Agriculture Minister John Wise and Neal Hardy, Minister responsible for Saskatchewan Crop Insurance, announced that due to 1988 drought conditions, advance payments, estimated at $3.7 million, would be made to forage crop producers under the **crop insurance** program .

27 - Federal Agriculture Minister John Wise and Neal Hardy, Minister responsible for Saskatchewan Crop Insurance announced provisions for Saskatchewan farmers to graze or feed spring seeded crops as a result of **1988 drought** conditions. Land seeded to a spring crop and cut for feed, grazed or summerfallowed before July 11 would be eligible for summerfallow coverage in 1989.

- the Canadian Grain Commission announced changes in grain grading, moisture measurement and tariffs and fees for the 1988-89 crop year. The changes included a reduction in the number of **oat grades** from six to four; a grade schedule for **green peas**; a new grade schedule for **pea beans**; a reduction in the moisture limit for straight grade **flaxseed** from 10.5 per cent to 10.0 per cent; increases of ten per cent to 14 per cent in the maximum grain **storage charges** at all elevators; and a reduction in the fees for **inspection and weighing** on loading to vessels at St. Lawrence transfer elevators.

30 - Saskatchewan Premier Grant Devine announced a three part drought assistance plan for Saskatchewan livestock producers. The federal-provincial programs provided for $53 million for **greenfeed**, $100 million in per head payments under the **Livestock Drought Assistance Program** and a **tax deferral** for 1988 on income from drought-forced breeding herd sales. Saskatchewan was expected to receive $25 million under the Canada-Saskatchewan Greenfeed Program and $39 million under the Canada-Saskatchwan Livestock Drought Assistance Program.

- June was hot, dry, sunny and windy across agricultural Saskatchewan. Record and near record **temperatures**--above 30°C--during most days resulted in average temperatures of 2°C to 6°C above June normals. Most of the province received below normal accumulated **rainfall** during June. The exceptions were western areas which received normal to above normal rain as a result of isolated and heavy thunder showers at the end of the month. Much of the province received from 25 per cent to 60 per cent of normal June rainfall during the month. Accumulated precipitation during **April-June 1988** ranged from 17 per cent of normal in the northeast to above normal in east central regions and in isolated northwestern locations. Generally, most of Saskatchewan received rainfall of 20 per cent to 80 per cent of normal. By month end, Saskatchewan crop, hay and pasture were reported to be in poor condition across much of the agricultural region. Farmers were hauling water, digging new wells, trucking cattle and feed, ploughing under and reseeding crops.

July

7 - Federal Agriculture Minister John Wise announced payments to eastern Canadian canola growers under the **Agricultural Stabilization Act**. The payments totalled $3.8 million for 1986-87 and $1.4 million for 1987-88.

8 - Saskatchewan Premier Grant Devine announced details of the new **Investment Loan Program** for joint livestock operations. The program, contained in the 1988 Budget Speech, provides up to eight million dollars for farmers investing in a joint livestock operation to establish or expand operations through purchase or improvement of livestock facilities, equipment and breeding stock.

- the Western Grain Stabilization Administration proposed and subsequently implemented, effective August 1, 1988, a new definition of **designated purchasers**. The minimum purchase requirement of 1 000 tonnes per year was lowered to 200 tonnes. Also approved was an affidavit system to facilitate purchases of less than 200 tonnes for feeding.

20 - Grains and Oilseeds Minister Charles Mayer announced **1988-89 initial payments** at levels higher than those originally announced April 22, 1988. Initial prices were set at $150 per tonne ($4.08/bu.) for No. 1 C.W.R.S. Wheat basis Thunder Bay; $175 per tonne ($4.76/bu.) for No. 1 C.W.A. Durum; $160 per tonne ($2.47/bu.) for No. 3 C.W. Oats; $195 per tonne ($3.00/bu.) for No. 1 C.W. Des. Oats; $120 per tonne ($2.61/bu.) for No. 1 C.W. Barley and $180 per tonne ($3.92/bu.) for S.S.C.W. 6 Row Barley.

- the **National Tripartite Hog Stabilization Committee** announced that no stabilization payments for hogs would be made for the April-June 1988 program period.
- payments totalling $0.95 million were mailed to participants of the **Saskatchewan Hog Assured Returns Program** for the April-June 1988 program period.

25 - Farm Credit Coporation Chairman Jim Hewitt announced that, for loans approved after July 22, 1988, **interest rates** were being raised to 12.5 per cent for five-year fixed interest term loans and 12.75 per cent for ten-year and fifteen-year (or more) fixed term.

26 - Saskatchewan Premier Grant Devine and Moose Jaw M.P. Bill Gottselig took part in the sod turning ceremony for the **Riverhurst Irrigation Project** to develop 21 500 acres.

29 - Federal Agriculture Minister John Wise announced that the target price for **industrial milk** would be maintained at $47.06/hl effective August 1, 1988.

- the **National Tripartite Lamb Stabilization Committee** announced that no stabilization payments for lambs would be made for the March-May 1988 program period.
- the **National Tripartite Beef Stabilization Committee** announced a slaughter cattle stabilization payment of $42.45 per head for the April-June 1988 program period, that no stabilization payments for feeder cattle would be made for second quarter 1988, and that no stabilization payments would be made under the cow-calf scheme for 1987.
- Canada **exported** a record 30.43 million tonnes of the major grains and oilseeds during the 1987-88 crop year, an increase of one per cent from the previous record of 30.16 million tonnes in 1986-87.
- most of Saskatchewan experienced above normal temperatures and received below normal rainfall during July. With the exception of the northwest, which averaged **temperatures** of one degree Celsius below normal, July temperatures across Saskatchewan averaged from 0.5°C to 2.0°C above normal. Daytime highs exceeded 25°C on most days and exceeded 30°C on numerous occasions throughout the month. With the exception of a fairly general **rain** during the first week, the month's precipitation came in the form of heavy but scattered showers. Monthly accumulations were above normal along the western and southern borders and in isolated locations elsewhere. By month end, it was evident that a substantial portion of the province's seeded crop would not be harvested and that 1988 production would be well below average.

August

- the United States Department of Agriculture announced the 1988-89 preliminary **loan rate** for soybeans at $4.77 per bushel, unchanged from 1987-88. The final 1988-89 loan rate was set in September 1988 at $4.77 per bushel.

18 - Grains and Oilseeds Minister Charles Mayer announced that amendments to the **Western Grain Stabilization Act** (W.G.S.A.) had been given Royal Assent. The amendments, to increase producer participation and crop coverage and to reduce the program deficit, included: the addition of triticale, mixed grain, sunflower seed, safflower, buckwheat, peas, lentils, fababeans and canaryseed to the list of crops covered for the 1987/88 crop year; removal of the penalty for rejoining the program; increasing the producer levy rate to four per cent and the federal government rate to six per cent retroactive to August 1, 1987; and a write-down of $750 million of the program deficit. Non-participating producers could join the program retroactive to August 1, 1986. Amendments to the W.G.S.A. to encourage program participation were introduced in June 1988.

25 - The Saskatchewan Beef Stabilization Board announced payments totalling $11.27 million to participants of the **Saskatchewan Beef Market Insurance Programs** for the April-June 1988 program period.

27 - Farm Credit Corporation **interest rate** on Shared Risk Mortgages increased to 12.75 per cent from 12.25 per cent.

- August **temperatures** averaged slightly below normal across most of agricultural Saskatchewan. The exception was the southeast where early month daytime highs exceeding 30°C resulted in warmer than normal average temperatures. **Rain** and showers at the beginning of the month and during the third and fourth weeks resulted in above average monthly totals for all but southern Saskatchewan. The area north and west of a line through Kindersley-Saskatoon-Prince Albert recorded twice the normal August rainfall. Most of the area south and east of this line and north of a line through Maple Creek-Regina-Yorkton received 15 per cent to 70 per cent above normal rainfall while south of the line August rainfall was below normal and allowed for rapid harvest progress. By month end, the 1988 Saskatchewan harvest was nearing 70 per cent completion. Southern areas were near completion while rain in the remainder of the province delayed the harvest. Northern areas had completed 40 per cent of the harvest by the end of August. In spite of the rain, the quality of the 1988 harvest was rated good to excellent.

September

1 - Saskatchewan Justice Minister Bob Andrew announced that the remaining sections of the **Saskatchewan Farm Security Act** were proclaimed in force. The legislation included a farm mediation program to facilitate debt rearrangement, a relaxation of farm ownership rules to allow Saskatchewan non-agricultural corporations and Canadian residents outside Saskatchewan to own 320 acres of farm land and an end to unlimited third party guarantees with a requirement that any guarantee executed regarding farm lands or assets be signed before an independent lawyer or notary public. The homestead protection and right of first refusal sections of the Farm Security Act were proclaimed in June 1988. The Saskatchewan Farm Security Act was introduced in May 1988 to consolidate existing and new protection statutes.

13 - Grains and Oilseeds Minister Charles Mayer announced the appointment of the **Feed Freight Assistance** (F.F.A.) Review Committee to examine the objectives of the F.F.A. and recommend improvements. The F.F.A. was introduced in 1941 to increase livestock production in British Columbia and Eastern Canada by equalizing the cost of transporting feed grain to these feed deficit areas.

23 - Federal Environment Minister Tom McMillan and Saskatchewan Parks, Recreation and Culture Minister Colin Maxwell signed an agreement to establish **Grasslands National Park** in southern Saskatchewan.

30 - the United States Department of Agriculture announced **1989-90 loan rates**; for corn at $1.65 per bu., barley at $1.34 per bu., oats at $0.85 per bu. and rye at $1.40 per bu. The 1989-90 loan rates are seven per cent below 1988-89. The 1989-90 loan rate for wheat was set in May at $2.06 per bu. The 1988-89 loan rate for soybeans was set at $4.77 per bu., unchanged from 1987-88.

- September averaged cool and dry across most of Saskatchewan with normal to below normal **temperatures** on most days. Above normal temperatures during the first week and again at mid-month, resulted in monthly averages at near normal in most locations. **Frost** was reported in various locations during the second week with the first general frost of 1988 (five to six degrees) experienced on the 19th. General frosts were also recorded during the period of September 23-26. **Rain** was reported on numerous days throughout the first week, at mid-month and during the last week of September. As a result, monthly accumulations ranged from five to 60 per cent above normal in a band from Lloydminster through Hudson Bay. Above normal rainfall was also received in southwestern locations. By the end of September, the southern two-thirds of the Saskatchewan grain belt had completed the 1988 harvest while ten to 15 per cent of the harvest remained across the north.

October

12 - the **National Tripartite Lamb Stabilization Committee** announced a lamb stabilization payment of $6.83 per head for the June-August 1988 program period.

25 - the **National Tripartite Hog Stabilization Committee** announced a hog stabilization payment of $23.53 per hog for the July-September 1988 program period.

- payments totalling $0.42 million were mailed to participants of the **Saskatchewan Hog Assured Returns Program** for the July-September 1988 program period.

26 - the **National Tripartite Beef Stabilization Committee** announced a slaughter cattle stabilization payment of $100.95 per head and a feeder cattle stabilization payment of $32.78 per head for the July-September 1988 program period.

- October, like September, continued mostly cool and dry. **Temperatures** averaged above normal until mid-month but turned colder to average below normal for much of the remainder of the month. As a result, monthly temperatures averaged 0.5°C to 1.0°C below normal in most Saskatchewan locations. October **precipitation** was less than one-half of normal across much of Saskatchewan. Locations in the southwest and in the east received less than ten per cent of normal October rain. North of a line from Kindersley through Hudson Bay, precipitation totalled 50 to 75 per cent of normal. As a result of the dry, warm weather early in the month, Saskatchewan farmers were able to complete the 1988 harvest by Thanksgiving. The effect of the 1988 drought on Saskatchewan **crop production** was confirmed in the production of 11.76 million tonnes of major grains, oilseeds and specialty crops, down 48 per cent from 1987 and down 40 per cent from long term average production of 19.69 million tonnes.

November

2 - Farm Credit Corporation announced that the **interest rate** on Shared Risk Mortgages approved after November 1, 1988 would decrease to 12.5 per cent from 12.75 per cent.

10 - Federal Agriculture Minister Don Mazankowski and Grains and Oilseeds Minister Charles Mayer announced the **Canadian Crop Drought Assistance Program** to compensate crop producers for losses due to the 1988 drought. Saskatchewan was expected to receive $427 million under the $850 million program.

14 - Federal Grains and Oilseeds Minister Charles Mayer announced **1988-89 initial price** increases for wheat. Initial prices were raised $20.00 per tonne November 17, 1988 and brought the initial price to $170.00 per tonne for No. 1 C.W.R.S. basis Thunder Bay. Adjustment payments for August 1-November 16 deliveries were mailed to producers in December.

15 - Federal Agriculture Minister Don Mazankowski, Grains and Oilseeds Minister Charles Mayer and Pierre Blais, Minister of State for Agriculture announced that $60 million would be paid to Ontario, Quebec and Maritime producers under the **Agricultural Stabilization Act** for 1987-88 grain corn, barley and canola. Prairie corn producers were eligible for the corn payment.

24 - the Saskatchewan Beef Stabilization Board announced payments totalling $16.20 million to participants of the **Saskatchewan Beef Market Insurance Programs** for the July-September 1988 program period.

- Federal Grains and Oilseeds Minister Charles Mayer announced a final payment calculation of $255 million under the **Western Grain Stabilization Program** for 1987-88. Combined with the initial payment of $695 million announced in April, the total 1987-88 crop year benefit was $950 million, $518 million to Saskatchewan. The amount of the final payment paid to producers was less than $255 million as a result of the amendments passed in August 1988 which increased the levy due and the list of eligible crops retroactive to August 1, 1987.
- total **precipitation** during November ranged from one-half of normal in central regions to above normal in southeastern locations. Across the remainder of the province, rain and snowfall amounts averaged two-thirds to 90 per cent of normal although isolated locations reported normal to above normal amounts. Nighttime lows were near -20°C at mid-month and during the weekend of the 26th-27th. However, above freezing daytime **temperatures** throughout the month resulted in November temperatures averaging near to above normal. As a result, most of the province had only a light snow cover at month end.

December

1 - Federal Agriculture Minister Don Mazankowski announced Cabinet authority to sign tripartite stabilization agreements for **honey** and **onions**.

12 - Saskatchewan Premier Grant Devine and Fred Mitchell, president of **Intercontinental Packers Ltd.** announced Phase Two of a $24 million four-phase expansion by Intercon. The $8 million modernization of the Saskatoon plant follows the $5.2 million hog carcass chilling facility and would double the beef kill and chill capacity to 5 200 head per week by October 1989.

19 - the Canadian Wheat Board announced **1987-88 crop year final payments** for each of the six pool accounts. The 1987-88 final payments included $14.02 per tonne ($0.38/bu.) for No. 1 C.W.R.S. Wheat, $44.36 per tonne ($1.21/bu.) for No. 1 C.W.A. Durum, $34.04 per tonne ($0.52/bu.) for No. 1 Fd Oats, $18.59 per tonne ($0.29/bu.) for No. 1 C.W. Des. Oats, $9.08 per tonne ($0.20/bu.) for No. 1 C.W. Barley and $16.67 per tonne ($0.36/bu.) for S.S.C.W. 2 Row Designated Barley.

28 - Saskatchewan Minister responsible for **SaskTel** Gary Lane announced rate adjustments on selected services effective January 1, 1989. The adjustments included reduced rates for most long distance charges.

- SaskPower and SaskEnergy announced increases in **electrical and gas rates** effective January 1, 1989. The increases included 3.5 per cent for gas and 5.2 per cent for farm power.

30 - the Saskatchewan Milk Control Board announced approval of a four cent per litre increase in consumer **milk prices**, effective January 1, 1989.

- Saskatchewan Premier Grant Devine announced that Saskatchewan was entering the **tripartite** agreement for **beef stabilization**. The Premier announced in January 1987 that the province would negotiate entry into the national plan.
- CP rail provided public notice of application to offer **incentive shipping** rates, in co-operation with 22 grain shippers, for the 1989-90 crop year.
- CN provided public notice of application to offer **incentive shipping rates**, in cooperation with 27 grain shippers, for the 1989-90 crop year.
- December **temperatures** averaged 0.5°C to 1.5°C above normal across southern Saskatchewan and 2.0°C to 4.5°C above normal across the northern agricultural region. Above freezing temperatures were recorded during the first week while overnight lows, below -20°C, were reported at mid-month and were below -30°C on a few nights during the last week. December **snowfall** totals were 25 to 50 per cent of normal across northern locations while the area south of a line from Kindersley through Estevan received above normal snow. Most of the snow came as a result of a winter storm which passed through on the 13th and 14th. The storm resulted in 24 cm recorded at Swift Current and nearly 15 cm at Estevan. By month end, the southern two-thirds of the agricultural region had at least a ten cm snow cover. The northern third had one-half this amount.

*Effective the 1984-85 crop year the Canadian Grain Commission allowed operators of primary elevators to licence two or more adjacent facilities, which were under the control of a single manager, as a single primary elevator.

**Capacity is measured in tonnes of wheat storage capacity.

*The operating period of the Western Grain Stabilization Program was changed from a calendar year to a crop year, effective August 1, 1983. Producer levy collected for 1983-84 is the period January 1, 1984 to July 31, 1984. This procedure was required to permit the transition from a calendar year to a crop year calculation.

Table 127 - Metric Conversion Factors Used

1 kilogram = 2.2046 pounds
1 tonne = 1.1023 tons
= 22.0464 hundredweight
= 36.7437 bushels of wheat or durum
= 64.8418 bushels of oats
= 45.9296 bushels of barley
= 39.3683 bushels of rye or flaxseed
= 44.0925 bushels of canola
1 litre = .21997 gallons
1 millimetre = .03937 inches
1 kilolitre of milk (3.5% b.f.) = 22.6761 hundredweight
